To whom it may concern,

RE: Feedback concerning Paediatrician Dr Jadwiga Grosicka

Date of the last visit: 25 February 2017

FEEDBACK

Dr Jadwiga Grosicka has provided medical consultations for my three children, Yasmin, Zara and Razin on numerous occasions at this clinic. I found her extremely professional, friendly and reassuring throughout the visits. Dr Jadwiga Grosicka is certainly a credit to TOP Medical Clinic and the care she provides for young patients is outstanding.

I cannot stress enough that her recent 'spot-on' diagnosis' saved my 9-month-old son's life when she diagnosed him with pneumonia as well as treated him without hospitalization where several doctors together with Paediatric Emergency Department at the hospital and ambulance services had failed to do so; they were all trying to convince me that he must have bronchiolitis when his condition was deteriorating rapidly. Dr Jadwiga Grosicka with her quick and accurate diagnosis, could not have been more kind, caring and highly knowledgeable, and I cannot express my gratitude and enough praise to her for this.

My children adore Dr Jadwiga Grosicka, are treated with utmost friendliness, warmth and care at every visit, and they always look forward to seeing her again.

In the light of the above, I would, without hesitation, highly recommend Dr Jadwiga Grosicka to any mother wishing to see her with her child or children at TOP Medical Clinic as she truly deserves a recognition, not only for her skill and exceptional medical knowledge, but also for her professional approach, warmth, friendliness and empathy towards the youngest patients and their parents.

In my opinion she does not need to improve in any area as her medical professionalism and credentials are second to none, and it goes without saying that I would not find a paediatrician like her anywhere else.

Yours faithfully,

Edyta Cichocka – Poduvachola
Yasmin's, Zara's and Razin's mum
